

WAHID ALI

FULL STACK WEB DEVELOPER

Deira, Dubai | [+971 50 964 8931](tel:+971509648931) | wahidali.dev@gmail.com | <https://wahidali.me/>

SUMMARY

Full Stack Web Developer with 3+ years of experience focused on Laravel and PHP backend architecture. Expertise includes database schema design, RESTful API development, and implementing secure, scalable web solutions. Passionate about writing efficient, maintainable code and optimizing application performance through best engineering practices.

SKILLS

- | | | | |
|-----------------|--------------|----------------|----------------|
| • PHP | • JavaScript | • HTML5 | • MySQL/SQLite |
| • Laravel | • VueJs | • CSS3 | • Git/GitHub |
| • CodeIgniter 4 | • AlpineJs | • Tailwind CSS | • RESTful APIs |
| • Ubuntu/Linux | • Nginx | • Bootstrap | • CI/CD |

WORK EXPERIENCE

Laravel Developer May 2023 - Nov 2025
AlrightTech (SMC-Pvt) Ltd | Islamabad, Pakistan

- Developed and maintained a Laravel HRMS for 200+ employees, handling records, attendance, and payroll.
- Built RESTful APIs for mobile apps with secure authentication and real-time data sync.
- Created backend architecture for a food delivery platform with orders, users, and restaurant modules.
- Optimized MySQL queries, improving response time by ~25%.
- Collaborated with frontend and mobile teams to ensure smooth system integration.

PHP Developer May 2022 - Apr 2023
S2S Developer And Marketing Pvt Ltd | Islamabad, Pakistan

- Built and maintained CRM for lead import & multi-team assignment, processing 3,000+ leads/month and cutting manual work by ~40%.
- Designed & optimized MySQL databases, improving query speed by 30–45%.
- Removed duplicate code, cleaned up redundant logic, and optimized codebase structure.
- Designed and updated MySQL database structures under senior guidance.

Laravel Developer (Internee) Dec 2021 - Mar 2022
Conzummate Tech Ltd | Lahore, Pakistan

- Gained hands-on experience in Laravel as a beginner intern, quickly learning and applying MVC architecture and best practices to contribute to live web applications.
- Helped build and test RESTful APIs, contributing to 8+ endpoints and reducing integration issues through basic debugging.
- Fixed minor bugs, performed code optimizations, and collaborated with the team to learn project workflows, resulting in cleaner code and faster onboarding for future tasks.

PROJECTS

HRM System , <https://iaoi.io/iaoi-hrms>

AlrightTech (SMC-Pvt) Ltd.

- Built Laravel/MySQL HRMS with modules for employee, attendance, payroll, loan, timesheet, and shift management supporting 200+ users.
- Switched from lazy to eager loading, eliminating N+1 queries and cutting database calls by 80–90% in key views.
- Enhanced responsive UI with Alpine.js for faster dashboards, approvals, and data entry.
- Maintained clean codebase via Bitbucket with performance tuning for reliable, scalable operation.

Food Delivery , <https://delmunch.com>

AlrightTech (SMC-Pvt) Ltd.

- Developed and optimized the admin dashboard (restaurant panel at [panel.delmunch.com](https://delmunch.com)) using Laravel, enabling restaurants to manage orders, update menus, track performance, and handle on-the-go control via mobile
- Built and maintained 20+ RESTful APIs for core features like order processing, real-time tracking, menu management, and restaurant-customer interactions to power the customer app and dashboard.
- Contributed to a scalable food delivery system supporting multiple restaurants and efficient order handling in a live production environment.

BTLCC, <https://www.btlcc.org>

AlrightTech (SMC-Pvt) Ltd.

- Developed RESTful APIs to online appointment booking, same-day scheduling (in-person/ telehealth), patient registration, and service management for a comprehensive primary care & wellness clinic.
- Optimized API performance and query efficiency, reducing response times and supporting reliable access for clinic staff and patients.
- Implemented Stripe and PayPal integrations to support secure online payments for appointments and clinic services.

CRM , <https://s2smark.com>

S2S Developer And Marketing Pvt Ltd.

- Built and maintained a custom CRM for efficient lead import, automated multi-team assignment, and centralized management, processing 3,000+ leads/month and reducing manual assignment effort by ~40%
- Removed duplicate code, eliminated redundant logic, and refactored codebase for better maintainability, cleaner structure, and easier future enhancements.
- Implemented performance monitoring and reporting modules to track employee productivity and lead workflows with improved accuracy

EDUCATION

Sep 2017 - Oct 2021

Bachelor In Software Engineering

University of Swat

- Software Development Life Cycle (SDLC)
- Software Architecture.

ADDITIONAL INFORMATION

- **Languages:** English, Urdu, Pashtu
- **Certifications:** **Web Development(PHP)**, MAX TECH Computer Institute.
